Wild Flora and Habitat in Nova Scotia

The Nova Scotia Wild Flora Society is dedicated to the appreciation and conservation of wild flora and habitat, especially in Nova Scotia. A non-profit organization and an affiliate of the **North American Native Plant Society**, the society welcomes all people who are interested in native flora. Members meet regularly on a social basis to host speakers, plan recreational field trips, and organize other events.

This web site serves to create awareness about the Nova Scotia Wild Flora Society, and to be a source of information for topics of interest to all wildflower enthusiasts.

Please read the President's Welcome.
